## PRO 900 Tower System

5

This system features more stations, with more freedom as to how you can configure and arrange those stations. Any combination of stations can be attached to one another, forming "Pods" in combinations of two, three, four, five or six stations. These "Pods" can be connected to one another with the addition of a COCB Cross Over Bar w/Chin Handles. There are several stations available, in 3 groups:

The first group of stations can be ordered as "Pod" units or as "Free Standing" machines at the same price.

Model No.	Description	Stack-Lbs	Retail	Qty	Total
<b>900 Series Tower Stations - Group I</b>

# Varsity 800 Tower System \*

9

## Varsity Multi Stack Tower System Without A Crossover

(Minimum 2 Machines / Maximum 4 Machines) (2 Machine Tower Systems MUST be set up Back to Back)

### Step One:

When ordering a Multi Stack Tower with 2 Machines, order a VT1 Connecting Tube with Floor Brace. (See Table Below)

When ordering a Multi Stack Tower with 3 or 4 Machines, order a VT3 Connecting Tube. (See Table Below)

### Step Two:

List the Model #, Description, Quantity, and Cost for the appropriate Tower Machines that you want.

## Varsity Multi Stack Tower System With A Crossover

(The Crossover is 1 Machine with 2 Weight Stacks) (Minimum 2 Machines (Equals 3 Weight Stacks) / Maximum 7 Machines (Equals 8 Weight Stacks))

You must first determine how you are going to configure your Tower System

### Step One:

Order 1 x D824 Crossover

### Step Two:

If you are going to have a Crossover with 1 Machine, or 0 Machines attached on either side, Order 2 x VT1 Connecting Tubes w/Floor Brace. (See Table Below)

If you are going to have 2 or 3 Machines attached to either side of the Crossover, Order 2 x VT3 Connecting Tube (See Table Below) for each side that will have 3 or 4 Weight Stacks

### Step Three:

List the Model #, Description, Quantity, and Cost for the appropriate Tower Machines that you want.

DP826	Varsity Dual Pulley Low Row	252	\$1,625		
D846	Varsity Lat Pulldown / Low Row	252	\$1,645		
D847	Varsity Bicep / Tricep	228	\$1,445		

## Varsity Free Standing Tower Machines

To complete a Free Standing Tower Machine:

### Step One:

Order the Tower Machine of your choice

### Step Two:

Order 1 x VT1 Connecting Tube w/Floor Brace (See List Above)

## Expanding Your Varsity Tower System

You will be able to expand any Varsity Free Standing Tower Machine into a Back To Back Tower Machine at any time by simply ordering any Tower Machine that you want from the list above.

If you want to expand your Free Standing Tower Machine to create a Multi Stack Tower with 3 or 4 Machines, you must first order a VT3 Connecting Tube (See List Above) and then order the additional Tower Machines that you want from the list above.

As long as any ONE of your Tower Machines is an Adjustable Pulley, you can connect that Adjustable Pulley Machine to another Adjustable Pulley Machine to create a Crossover. You can then continue to build your Magnum Varsity Expandable Tower. To do so, follow these steps:

### Step One:

Order 1 x VCB Crossover Tube w/Chin Bar. (See List above)

### Step Two:

Order 1 x D823 Adjustable Pulley. (See List above)

### Step Three:

Order 1 x VT1 Connecting Tube with Floor Brace. (See List above)

If you want to connect 2 or 3 additional Machines to this second half of your Crossover, Order 1 x VT3 Connecting Tube rather than a VT1. (See List Above)

\*\* The D823 Adjustable Pulley, the DP823 Dual Adjustable Pulley, and the D842 Pushdown ARE NOT available as Free Standing Single Station Tower Machines at this time. They can be ordered as part of either a Back To Back unit or a Multi Tower Machine unit.

**\* UNLESS OTHERWISE NOTED, ALL VARSITY UNITS COME STANDARD IN SILVER OR WHITE POWDER COAT WITH BLACK UPHOLSTERY**

## Duraroll Rubber Flooring (Prices Reflect 10% Color Fleck\*)
